Shagreen

Split Face

Suede

Rich hues of desert tans and buffs come together to form Almande Sandstone – a beautifully active, yet completely harmonious building and landscape stone. Unlike other layered sandstone materials, Almande is a quarried block sandstone that is capable of being precision fabricated to exacting tolerances. As such, this distinctive sandstone can be used in the same types of wide-ranging formats and applications traditionally reserved for limestones.

APPLICATIONS

- Architectural Items
- L-Shaped Corners
- Thin Veneer
- Full Depth Veneer
- Residential Paving

SPECIFICATIONS
