Dark Split Face

Split Face

Timeless and sophisticated, Gris Limestone and Gris Dark Limestone are finely grained sister limestones that each have their own unique set of strengths. The neutral, yet warm taupe color range of Gris Limestone makes it a natural choice to move from building to landscape on any project. Gris Dark Limestone's color range combines shades ranging from pewter grey to earthy buff tones giving it a relaxed, rustic elegance which enhances, rather than competes with, other building materials on a project.
