

## FINISHES

Shades of beige, soft dove grey, and charcoal combine to make Silver Mist Limestone a natural choice for split face wall stone on projects seeking that ever elusive shade of 'greige'. Silver Mist Limestone is also an excellent option for the highly fabricated applications such as the entry arch assembly, wall and column caps, and slab benches shown in our featured project. For these cut to size applications, quarry blocks are selected to achieve a consistent and harmonious color range from piece to piece.
