

FINISHES

Brushed

Honed

Matte

In full color range, the warm ochre and caramel tones of St. Albain Limestone are interrupted by concentrated areas of plum shadowing and strong purple veining. The harmonious hues – absent of plum or purple – throughout the paving of this featured project demonstrate Maiden Stone’s ability to sort to a highly specific selection within a given material, based on the client’s criteria. This ensures a successful result that supports the overall look and design intent of each project.
